Robin,

I would like to take this opportunity to express my appreciation of your service for the past two plus years, and recommend your clinical risk and operations consultancy firm. The expertise of you and your team has made a significant impact on the success of our sub-acute and rehab facilities. Special recognition for Shirley Hunziker and the other consultants who have committed their valuable onsite time consulting our teams in areas of compliance, policies and risk management.

Looking forward to our continued professional relationship in providing superior care to our patients.

Sincerely,

Ric Winkler, NHA
