

Dear RB Health Partners,

UHCA hired RB Health Partners based on high recommendations from other State Health Care Associations. It was such a pleasure to work with Robin Bleier, the President of the Company. She was very speedy in her responses, assisted me in any issues or questions I had, and ensured that our program would go on without a hitch. We were fortunate to have a long-time nurse, Anabelle teach the Infection Preventionist Training, and it was well-received. Our members felt they had enough knowledge to take to their facilities and move forward as a champion of Infection Prevention. Thank you, RB Health Partners, for a great seminar, and being so great to work with!
