Dear Robin,

It is my pleasure to write this letter thanking your organization and our consultant Staci Goldstein, Manager of Healthcare Quality for your services.

With your help our organization has achieved and maintained our Joint Commission (TJC) accreditation. Staci is a compassionate yet competent consultant and person. Without her guidance and support we believe we would have had a very difficult time making it through the process with so many competing priorities.

Our goal is to enhance our foundation of quality embracing the pillars of TJC and with Staci's help, I believe we shall.

Thank you!

Sincerely,
